

Mr. DiProfilio specializes in municipal and private-sector projects including new community design/planning, streetscape design, parks and open space systems, memorial and cemetery planning, and educational facilities. His ability to visualize and illustrate ideas at the conceptual level, articulate those concepts in detailed design, and coordinate complex project teams through approvals and execution make him a leader in the firm. He also serves as one of two in-house specialists in AutoCAD, computer services, integration with other computer support systems, and performance standards and municipal by-laws.

Paul's superior communication and information management skills, and proven abilities in client service, project management and contract administration have been key to the success of numerous projects.

BLA, OALA, CSLA
